## Speak up for Kids with Cancer

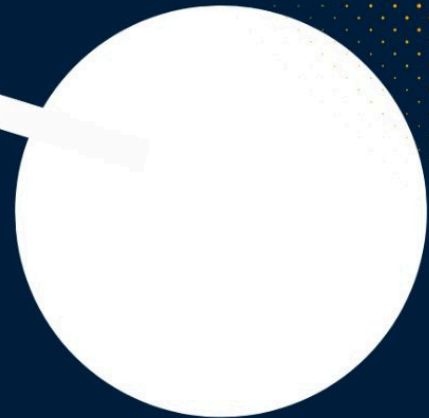

### Key messages for your local candidates:

- Childhood cancer is not the same as adult cancer.
- Most treatments are made for adults —kids deserve better care and treatment.
- Pediatric cancer is underfunded, yet it's the #1 disease-related cause of death of children in Canada
- Canada needs a national plan to support kids with cancer and their families.

## TALK TO YOUR CANDIDATES

Not sure what to say? Start here!

### Ask your candidate:

“Will you commit to prioritizing pediatric cancer research, treatment, and national planning?”

### Key Policy Requests:

- Sustained Research Funding – Long-term investment in kids' cancer research.
- National Childhood Cancer Strategy – Goals, funding, and accountability for better care.
- Support for Complex Therapies – Access to advanced treatments like CAR T-cell and proton therapy.
- Better Access to Treatments – Tailored drug approval and reimbursement processes for kids.

Be clear, concise and respectful.

Your voice matters!
